I believe soul line dances are usually learned by watching people dance it and memorizing the steps and how they fit the music, making strong musical muscle memories. This dance, fortunately, also lends itself to being counted and written into a step sheet for other learning preferences.

The counts are based on the rhythm of the music. Dance begins on the "and 8 and".

STOMP RIGHT, LEFT, OUT CROSS, AND CROSS AND, CROSS, BACKWARD POINT STEPS

&&& Stomp on right foot on "&", left foot on "8", point right foot out to side on "&"

5 6 7 8 Step back pointing left foot out, recover on left, step back on right, recover on right

1 2 3 4 Step back pointing left foot out, recover on left, step back on right, recover on right
