- 5-6 Step right forward, hold
- 7-8 Kick left across the right, step left to left side (shoulder width apart)
- 9&10 Kick right forward, step right next to left, touch left toe to left side

- 17&18 Step left back, step right back, step left back
- 19-20 Step back with right foot into ¼ turn to the right, drag the left foot towards the right

At the end of the 3rd repetition, finish the dance completely. Then do the tag just as it is described above, then start the dance again. At the end of the 6th repetition, drop the last two counts of the dance. Start the tag right after you bring your arms to your sides. Then (a tag within a tag?), the last two counts of the tag

becomes four counts. Still step with the right on 19, then drag for three counts. Then start the dance again. On the first wall, do not do the arms on the last two counts of the dance as you will look extremely ridiculous. It doesn't fit with the music there. Instead, just bounce or come up with your own two counts.
