Start Again!

One and only TAG:

Towards the end of the 5th repetition of the dance, (you will be at the front/ 12 o'clock wall) the music will slow down.

You will be doing count 5 of the last set of 8 on the word "side..."(after the sailor steps) ; slowly step forward on your R leaning straight forward with the music eliminating the $\frac{1}{2}$ turn L (count slowly 5,6,7,8 &); when the note is sung an octave higher, slowly start leaning back on L; the music will speed up again - start the dance from the beginning?you will get the hang of it the more you practice with the song! You will dance the dance all the way through one more time plus only the 12 counts of the dance?the song will sound like it is ending- turn $\frac{1}{4}$ R to face the front and slowly raise and then lower arms. You can fade out here and finish or continue when the song starts up again. Have fun!
