## **RESTART**

Please note there are 3 restarts in the dance, the first two being at the same point in the dance, after count 20, the first time being during wall 2 of the dance so that the restart takes you back to the home wall (12:00) for the start of wall 3 on count 1, the second time it happens is during wall 5, when you restart the dance facing the back wall (6:00), restarting from count 1 for wall 6

The third and final restart happens during wall 9, the restart is after count 16, but counts 7 & 8 of section 2 (counts 15 & 16) are to be replaced with modified counts 7 & 8 at this point, to keep the dance facing 12:00 for the restart, after executing the modified counts 7 & 8, as given in the script, restart the dance from count 1 (facing 12:00)
