- 7 Pivot $\frac{1}{2}$ turn on the right foot and step back with the left foot
- 8 Pivot $\frac{1}{2}$ turn on the left foot and step forward with the right foot

When you start the turn on count 3 you are facing the right wall. When you start the turn on 5 you are facing the left wall. By the time you have made 1 $\frac{1}{2}$ turns through &6-7-8 you will be facing the right wall.

- 6 Step forward on right foot
- 7 Bring left knee up and make a $\frac{1}{4}$ turn to the left on your right foot

8 Step down with your left foot as you make another ½ turn to the left to face the front again

SAILOR STEPS NORMAL OR SYNCOPATED

- 2&3 Sailor step (cross behind with left, side right, in place left)

- 8& Sailor step (cross behind right, side left)

You can also double up the timing 1&2&3&4&5&6&7&8&1. Some of the song feels like you should only do the regular sailors mentioned in the 5th count of 8 and other times it feels like it should be syncopated. Syncopate in the chorus and regular time the verse

You can do a single roll if the double is too hard
