The following applies only when using original track:

At the beginning of the 5th sequence (it's after the piano break and you'll be facing the front wall), Sam sings without the drumbeat. Just continue the dance as normal. Near the end of the song the music will slow down (you'll be facing the back wall & dancing counts 34-36). Just pause/pose after count 36, then complete the dance as normal from counts 37-48, holding for a good pose at the end on count 46
