**ADDITIONAL STYLING:** If you wish to make the dance a bit more funky or interesting then here are a few suggestions as to how you could do this.

**On Section 1:** Each time you Hitch one of your knees you could also pop or roll back the same shoulder. This should look as though your Knee and Shoulder are making the same shape.

**Alternatively on Section 1:** Each time you Hitch your RIGHT knee you could pop or roll BACK both shoulders, and each time you Hitch your LEFT knee you could pop or roll FORWARD both shoulders. This should look as though your upper body or shoulders are "Opening" and "Closing".

**Finally on Section 2:** Instead of just doing the Touches as they are you could add a little jump which brings your feet together whilst still Touching the relevant foot.
