This beautiful track has hesitations on counts 12 of dance on wall 1 and 3 and at the end of Wall 2....stick with the counts and enjoy dancing continuing on the beat. Once you know the song it is very easy. However it is a dancers dance and these hesitations are what make the dance level High Intermediate

****This dance was choreographed for my recent Breast Cancer Charity workshop in Johor Bahru and it is dedicated to everyone who is having to deal with any trauma big or small..... BELIEVE....there are lots who care and love you – Alison J ****
