Intro: 16 counts

Alt. music: Bring it on Down to My House by Asleep at the Wheel

Charleston: There are two styles, one straight, and two, advanced (with more attitude). The more advanced version is to move right foot forward and out and around in a 1/2 circle (ronde) to touch forward on count 1 simultaneously moving arms to right first right to compensate for the movement of the right foot out around to the front and back in to touch forward. Move arms the same way on return to the back. These arm movements are natural when doing Charleston. An even more advanced way is to swivel heels and toes of opposite feet inward and outward while swinging legs around.

\* The Charleston can begin with a step forward or a touch forward depending on the choreography. In this dance it is done with the touch forward every time it is called for.

The choreographer will show both Charleston step descriptions below with the count for this particular dance for both left and right side. Choose your option (straight or advanced) when Charleston Step is indicated elsewhere in the full description of this dance:
