**ENDING – Small steps in place with hip action**

**NOTE**

Lambada steps can be counted Quick Quick Slow. The Slow count involves lifting a foot up slightly. The knees are slight bent and most steps are taken with the ball of foot or toes.

The dance will not work with the more popular version of this music (Kaoma – Laolwa Braz) because it has an irregular pattern in the melody and rhythm beats. This version by the original singer of this portuguese version, Márcia Ferreira, must be used. If necessary to make the dance even easier, the music can be slowed down safely by up to 6%, i.e. 26 BPM (or 104 bpm).
