Start again

Note: The step description, on count 17-18, ask to do a "rock step with twist". Twist on right foot while doing the rock step. Let the right heel and hip swivel to the right when rock on right foot, and return to center when recover on left foot. It can be done as a regular rock step without the twist. Also, as it can be seen at the video, one can add a low kick with left foot at the time of rocking on right foot, but it is just an option.
