REPEAT

Step 13 starts a six-count vine, LOD alternating the cross foot work, starting in closed dance position.

Step 25 starts a vine to the inside of the circle.

On step 30, you are starting a blind turn. As you are turning away from your partner, we found that if you keep a light arm contact (lady's right, gent's left) as you are turning you won't get too far away from your partner as

you come back to closed position to do step 33.
