REPEAT

As you shuffle in the last 6 counts of the dance, you will complete a full turn. Release the right hands on the shoulder. Lead her into a forward shuffle extending the left hands forward on the left shuffle. As you begin the right shuffle, raise the left hands and turn ½ turn left both turning while man turns under his own arm. Continue turning as a couple and now the couple will complete the turn with the left shuffle turning ½ turn left over lady's end facing line of dance in a side-by-side position. All shuffles are tandem shuffles down line of dance. Do not stop the flow of the dance by turning in place.
