#### **REPEAT**

There is a break in the music after the first and second patterns. At end of first pattern, the break ends on tempo. Make 3 slow hip-bumps, then cross right over left and make a slow full turn unwind (for styling end the unwind by hitching right knee across left leg). 1 count hold and start dance again when music/vocals begins. Repeat for second break. This break is slightly longer, but there is a drumbeat 1 count before the music/vocals and the dance restart. During the third pattern, the vocals finish and an instrumental section begins and lasts through to fade. Dance through this (including counts between vocals ending and instrumental starting) and repeat dance to end of music.
