the last 4 counts it is the same as the normal pattern

EXTRA TAG

On the 7th pattern (starting facing front) the song slows as you complete count 24 (the turn). You need to hold for approximately 2 counts and take the next step on the word "can't" as she sings "cause you can't always keep your feet on the ground". Continue the pattern to the end, slowing slightly with tempo as you complete the turn section (counts 31-36)

You should start the next pattern (facing back wall) on the word "way" as she sings "we all learn the hard way". Keep dancing until you complete count 27 (you will be slowing down again to match tempo at this stage) - slide right beside left and wait for the lyrics

TO FINISH

Take a long step/slide to the right side on the right on the word "all", drag left toe to touch beside right and hold for 2 counts. Take a long step/slide to the left side on the left on the word "fall", drag right toe to touch beside left and hold for 2 counts. Step forward right, rock-step left forward, replace weight back onto right, step left backward, step right backward, touch left toe beside right (trying to keep the same tempo as the side steps). Wait 3 counts after the piano starts and restart from count 1 (you should be facing front). Dance up to count 16, then simply drag left toe back to finish
