ENDING

On the final sequence when the music slows down & the vocals stop, dance up to count 14 then instead of step turn step $\frac{1}{2}$, step $\frac{1}{4}$ turn right & cross left over right so that you end facing the front wall

INTRO

The dance starts on the first vocals, but there is no beat up until then to count in to, so you have to listen to the music a few times until you know where to come in. If preferred the dance can be started after 32 counts of vocals, which means that the tag is danced after the 1st and 3rd sequence.
