You will have to hear the music to work with this. You could do isolations, or body rolls or whatever "feels" right with the music

EXTRA PARTS:

A

Do the first 48 counts of A (leave out the last 16) and repeat the touch step $\frac{1}{4}$ turns for an extra 8 counts. So, once you make the $\frac{1}{2}$ turn, you will continue the touch steps and come back to the front.

A*

Do the first 32 counts of Part A (don't do from the shuffles onward), and repeat the cross steps two extra times for an extra 4 counts. This means you do 4 cross steps in total. Make them small so you don't move too far left

B

This is tricky to explain, but it works with the music, so listen to it first and then you will understand. You do all of Part B, then you will repeat the last 8 counts exactly as written. Then you repeat the last 8 counts as follows:

RIGHT STEP, HOLD X 3

- 1-4 Lean left, hold for 3 counts

LEAN LEFT, HOLD, LEAN RIGHT (TWICE)

- 5-6-7 Lean left, hold, lean right
- 5-6-7 Lean left, hold, lean right

LEAN LEFT, HOLD, LEAN RIGHT, LEAN LEFT

- 5-8 Lean left, hold, lean right, lean left

This seems like the easiest way to explain it but, as soon as you hear the music it will make sense! For the most part, you are repeating this 8 counts three times, with some extra stuff at the end. If you have any problems figuring this out, contact me and I'll try to help!
