RESTART

On the 10th wall only do the first 24 counts; the music will slow down for about 8 counts. When the music picks up again, you will start counting 1,2,3,4. At that 4 count you will do the tag one time, and then pick up the dance at the very beginning again. If you are using the album version, the music doesn't slow down. Just keep dancing without the restart.
