## **Bus Stop**

Count: 32 Wall: 4 Level: Beginner

Choreographer: Unknown

Music: Get Up, Get Down, Get Funky, Get Loose - Teddy Pendergrass

| 1-4                                   | Jump forward with your hands in the air, pointing your finger toward the sky, and shake your body four beats (or one beat for jump and shake 3 beats)                                                                                   |
|---------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 5-8                                   | Jump back with your hands pointing to the ground, and shake your body four beats (or one beat for jump and shake 3 beats). I tell them to bend forward while they do this.                                                              |
| 9-12                                  | Lean to the right and pretend you're hitchhiking with your thumb (I suggest they turn just a little to the left as they lean to the right and put a lot of movement in their arm and hips ("make it sexy if you want to get picked up") |
| 13-16                                 | Reverse and do the hitchhike to the left                                                                                                                                                                                                |
| This is the hardest part of the dance |                                                                                                                                                                                                                                         |
| 17-20                                 | Right forward rock step and right shuffle (step forward on your right foot and back on your left foot. Do a right triple step (right-left-right)                                                                                        |
| 21-24                                 | Left forward rock step and left shuffle                                                                                                                                                                                                 |
| 25-32                                 | Weight is on left foot after left shuffle. Turn ¼ to the left as you step backward on your right                                                                                                                                        |

foot (that's count 25) and simply walk backward seven more steps (that's a total of eight

## **REPEAT**

steps backward)
