Ending Complete the full turn triple, then –Step L behind R, R to side, large step L slowly dragging R towards L. (Count - 1 & 2)

NOTE: The beat is lost just before the end, keep dancing, you need to be in time to dance the last strong 8 beats of the song, at which time you will be starting a new wall to the front and doing the first 8 beats of the

dance. But if you find the timing at the end too hard till you are familiar with the music, don't give up on an otherwise very easy dance – you have my permission to fake it – or finish early – or whatever!!
