**Tag— after 3 full rotations of the dance, simply sway for 4 counts and restart the 4th rotation... following the “mmmmm’s” of the song. :)**

**Restart #1 -- On the 7th rotation of the dance, dance the first 20 counts and then restart. (This restart hits right after the right toe strut, so you will need to simply touch the right toe on count 3 and hold - without taking weight - to be in position to restart the dance)**

**Restart #2— On the 10th rotation of the dance, it is obvious there is a re-start because the music completely stops. You could simply sway (or be creative) through the silence and then begin the dance again. Another option could be to dance the 1st 8 counts (the final steps will be done without music) and then do two ½ turns to the left (step right forward, turn ½ turn left, taking weight on left and repeat) and then hold briefly to restart the dance.**
