REPEAT

STYLING

There are some special hand/arm movements in counts 4-10. On coming out of the $\frac{1}{2}$ pivot (count 3), the man will take his right hand and comb his fingers through his hair on the right side for count 4. As the right hand does the combing, the left arm/hand will rise up straight in front of you (parallel to the floor, palm down) flexing the fingers as the music reaches the end of count 4. To prepare for the combing, start to bring the hand up on count 3 ready to comb on count 4. The man will then drop his hands for count 5 switching sides to comb hair with the left and rising and flexing the right on count 6. Repeat on counts 7-8 and 9-10. The lady will use her right hand with closed fingers to run the palm over her head (don't mess the hairdo) on count 4 (remember to prepare on count 3). As the right hand/palm goes over the head, the left arm/hand will rise up straight in front of you (parallel to the floor, palms down) flexing the fingers as you reach the end of count 4. Remember these are optional. You have 7 counts to play with, so please do what feels good to you. Maybe you might just snap your fingers.
