**STEP RIGHT SLIDE LEFT, STEP LEFT, SLIDE RIGHT**

16-19          Slide left to right over three counts  
20&            Take big step to left diagonal  
21-24          Slide right to left over three counts

Steps 45 to 64 are always done when they are singing "Oh No I can't stop doing the Hale Bop Boogie" or when the instrumental section reach's that point (you can tell). The bridge is done twice in the whole song.

These are: If you begin the dance on the music then you complete three walls before each of the bridge sections. If you start on the lyrics then you do the bridge first after two walls, then after three walls

For the false ending you may do what you please! I can suggest three ½ Monterey turns, or ¼ Monterey turns, feel free to do what you think. When the music re-starts then start the dance again. As long as you are all facing the same way!
