One easy Restart at approx. 2.25 (when the percussion and backing stops):
Facing the front wall, dance up to step 24, but instead of touching L for the 24th step, put your weight on the left, hold for approx. 5 seconds, and re-start at step 1 when full backing re-commences. (As this is the final wall, to finish facing the front, do the vine left without the ¼ turn, and continue dancing steps 17-24 to end the dance.)
