7 8      Step left foot forward, turn ½ right, recover weight on right (3.00)

## Full turn, press step, tap/pop ball step backward, anchor step

- 1-2      Turn ½ right on right foot, step left back, turn ½ right on left foot, step right forward  
3-4      Press left forward, recover weight on right  
5&6      Tap Heel/pop knee left foot in place, step left next to right, step right back  
7&8      Step left slightly back, recover weight on right, replace weight on left

## Tap forward, tap side, rock and side, tap forward, tap side, rock and side\*

- 1-2      Tap right forward, tap right to right side  
3&4      Rock right behind left, recover weight on left, step right to right side  
5-6      Tap left forward, tap left to left side  
7-8      Rock left behind right, recover weight on right, step left to left side

\* Alternative for walk walk (most natural after first wall) is to collect right foot next to left in a tap/hold ball change to get a west coast swing "delayed" or "hitch" feeling.

\* Alternative for step flick is for example step tap or sways or whatever you feel is right for you to get a feeling.

\* Alternative for tap forward, side into rock and step is tap left forward, sweep left behind right then unwind a full turn in place over 2 counts.
