30            Right toe touch beside left instep  
31&32        Right foot kick forward (low) right ball of foot step to left heel; left foot step in place

## REPEAT

Choreographer's styling note: During the first 8 beats of the dance you will travel directly to the right and left from the starting position, but as you step or travel to the right, pivot your feet and body slightly to the right (45 degrees); as you step or travel to the left, pivot your feet and body to the left (45 degrees). In other words, as you step to left, pivot right; as you step to the ("&") between 3-4), pivot left; as you step to the "&" (between 7-8), pivot right. This provides a more attractive movement. Otherwise, it's just another grapevine.
