- &7-8      Close right up to left, step forward on left, turn  $\frac{1}{4}$  to left hitching right knee now facing (3:00:00)

## REPEAT

When executing the "funky paddle turn", there is upper body movement. The right shoulder will follow the right toe. For example: when touching out to side, the right shoulder should be lowered (left shoulder will be raised). As the right knee hitches, the right shoulder is raised (left shoulder is lowered).
